

Information on Cookies

What is a cookie?

A cookie is a small text file that a website stores on your computer or mobile device when you visit said website.

Cookies are widely used to make websites work, improve the navigation experience and provide information to the website owners.

Our websites use cookies for the following purposes:

Functionality cookies

Cookies used for technical purposes

The cookies in this category are used to check the technical settings of your browser and to record your preferences as identified during a previous visit to the website. Their purpose is to ensure you enjoy an optimal experience.

For example, we will record your decision to accept our use of cookies on the website, so that the question will not be raised every time you visit the website.

These cookies are essential to the functioning of our websites. They enable you to use the main website features (for example access to your R.Net account). Without these cookies, you will not be able to enjoy normal use of our websites.

Audience measurement cookies

The cookies in this category enable us to analyse how visitors browse our Websites. Thanks to these data, we are able to better understand how our website is used, in particular based on visitor profiles, how they reached the website (direct access, via a search engine, etc.), what pages they search, how long they stay on the website, etc. Accordingly, we are able to optimise and improve the website and services offered. These statistics are established by Google Analytics, a web analysis service provided by Google Inc. whose IP address anonymisation feature is activated to ensure user identities remain anonymous.

You can refuse the use of cookies in Google Analytics by downloading and installing the browser add-on to deactivate Google Analytics here:

[Google Analytics Opt-out Browser Add-on](#)

To find out more about these cookies, you can also consult the Google information page.

Social cookies

So-called “social” cookies are linked to the services provided by third parties, such as Facebook, Twitter, Google+, etc.

Social cookies are only stored if you decide to click on the available social platform buttons.

We have no control over the process used by social networks to gather information related to your browsing of our website and linked to the personal data in their possession. We invite you to check the privacy protection policies implemented by these social networks in order to understand the intended purpose, in particular of a promotional nature, of the browsing information they are able to collect through these application buttons. These protection policies should enable you to exercise your choices in these social networks, in particular by adjusting the settings of your user accounts for each of these networks.

Your choices concerning cookies

You may choose to configure your browser to accept all cookies, reject all cookies, notify you when cookies are issued, provide you with information on their period of validity and content, enable you to refuse to store the cookies on your device, and delete your cookies regularly.

You can set your Internet browser to deactivate cookies. However, you should bear in mind that if you deactivate cookies, some of our website features (and even some websites as a whole) will no longer work properly.

How to configure your browser

For more information on the methods enabling you to delete and control the cookies stored on your computer, consult the following website (in French only): <http://www.allaboutcookies.org/>

Alternatively, consult your browser’s help sections:

Chrome: <https://support.google.com/chrome/answer/95647?hl=en>

Internet Explorer: <https://support.microsoft.com/en-us/kb/278835>

Firefox: <https://support.mozilla.org/en-US/kb/enable-and-disable-cookies-website-preferences>

Safari: https://support.apple.com/kb/PH19214?locale=fr_FR&viewlocale=en_US

Give or refuse consent

When users visit one of our websites for the first time, they are informed of the use of cookies via an information statement. If the user continues his/her browsing on the website after reading this statement, we assume that he/she has agreed to the placing and use of cookies, in compliance with legal regulations. However, this decision can be reversed at any time by opposing the use of cookies via the Internet browser settings.
